

MSH

October 10, 1917.

Mr. Harry J. Christoffers,
Assistant Agent, Alaska Service,
1217 L. C. Smith Bldg.,
Seattle, Washington.

Inclosed herewith are a number of copies of special instructions of this date in regard to the preparation of Alaska fishery reports for the current season. It is understood that there is a sufficient supply of blanks at the Seattle office to meet any calls. The supply of blanks at this office is limited, and inasmuch as revisions are contemplated before another season, no additional blanks will be printed this fall. It is possible, therefore, that it may be necessary to secure a few additional copies from the supply at the Seattle office. Blanks, together with copies of the special instructions, have been sent to all interested persons so far as known to this office.

H. M. Smith.

Commissioner.

Inclosures.
